GlobalCAD™ Landscape
2012

Expert software for landscape design and land planning

GlobalCAD Landscape is the integrated landscape design solution that simplifies the way you work with AutoCAD® and Bricscad Pro/Platinum.

In today's competitive environment, GlobalCAD Landscape boosts productivity and helps you deliver winning designs ahead of time.

Freedom to Explore Concepts

With its outstanding range of 2D and 3D design libraries, GlobalCAD Landscape gives you freedom to explore all of your creative ideas.

▲ Comprehensive design libraries

Present your clients with optimal, highly cost-effective designs as your ideas effortlessly flow from concept to completion.

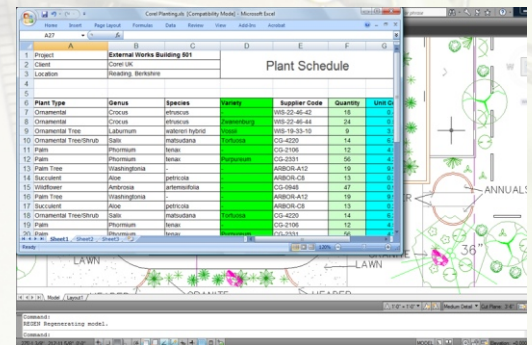

"GlobalCAD Landscape helps us save time and create compelling presentations."

-Gerald Phillips, Team Architect, Phillips Associates

Published in association with expert advice from industry professionals, design libraries are fully indexed into familiar categories, saving valuable drafting time.

Cost Estimates and Schedules

With GlobalCAD Landscape you can create comprehensive schedules and bill of materials from drawing data at the click of a button!

▲ Instantly create estimates and schedules

Query drawings for quantities and export data to a variety of file formats including Microsoft Excel and Access.

Interactive Plant Database

GlobalCAD Landscape includes an interactive and expandable plant reference guide, covering thousands of plants with digital pictures, illustrations and cultivation data.

Directly export plant fact sheets and bill of materials to Microsoft Word and Excel.

Creative Content

Utilize unique presentation tools for the creation of stunning hatch patterns and complex linetypes, generated quickly and easily from existing drawing objects.

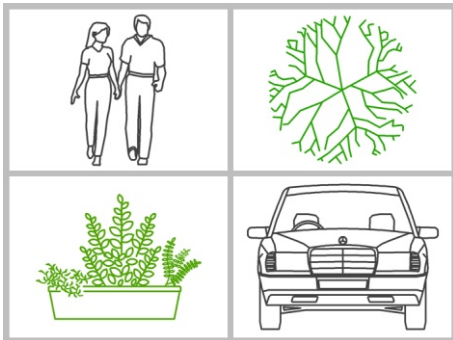

Includes hundreds of pre-drawn designs for impressive, instant results.

GlobalCAD Landscape helps realize your ideas and deliver winning designs ahead of time.

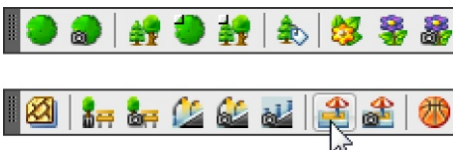

COMPREHENSIVE DESIGN LIBRARIES

- Freedom to investigate design concepts with professional 2D symbol libraries.
- Published in association with industry experts, design libraries are fully indexed into familiar categories, saving valuable drafting time.
- Instant ribbon/toolbar access to symbols, hatch patterns and complex linetypes.

RENDER-READY 3D MODELS

- Create stunning presentations with an outstanding array of 3D models, featuring landscape, GIS and civil.
- All models are render-ready with applied materials for fast, effortless photorealistic results directly within AutoCAD/Bricscad!
- Options also exist for seamless export to visualisation packages such as Autodesk 3DS Max and AccuRender.

MANAGE DETAILS AND BLOCKS

- Browse and compare blocks and drawing details fast within libraries.
- Create extensive libraries containing 2D, 3D and attributed blocks within seconds - with no user intervention necessary!

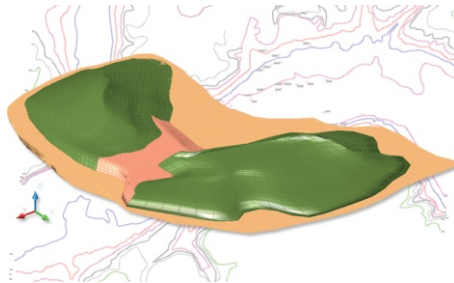

"GlobalCAD Landscape speeds the drafting process, leaving us more time to design."

-Daryn Fitz, CAD Systems Manager,
Bovis Lend Lease

- Connect the entire design team with total network support capabilities.
- Password protection safeguards sensitive data from unauthorized modification.

MANAGE SURVEY DATA

- Generate surveys with 'intelligent' survey markers - for ultimate accuracy.
- Move any markers in your drawing and their associative XYZ label automatically updates to reflect their new position!

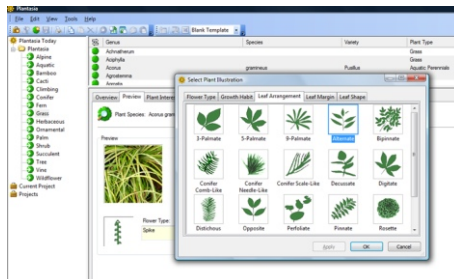

- Easily create 3D surface terrains (mesh and solids options) covering vast areas with a single mouse click.
- Conversion tools to instantly transform any existing surface mesh to solids.

COST ESTIMATES AND SCHEDULES

- Quickly attach attribute/cost information to drawing objects and symbols.
- Query drawings and export critical data to a variety of spreadsheet formats including Microsoft Excel and Access.
- Form dynamic links between drawings and corresponding spreadsheets.

INTERACTIVE PLANT DATABASE

- The most complete reference with extensive data on over 10,000 plants - all fully indexed for instant access.
- Fast and easy to use - simply drag and drop plants and related cost data into personal project folders.

- Uniquely expandable, add your own plant data, photographs and more!
- Advanced search tools to quickly find and view details on selected plants.
- Direct schedule links to popular packages including Microsoft Excel and Word.

DESIGN LIBRARIES (2D & 3D)

Landscape Design/Planning

- Trees
- Shrubs and Plants
- Irrigation
- Street Furniture
- External Paving
- Sports and Games Areas
- Playground
- Street Lighting
- People
- Vehicles (Private and Site)
- Road Works/Traffic Control
- Site Boundaries
- Graphical Symbols
- North Arrows

External Architecture

- Doors and Windows
- Building/Site Services
- External Features

PRESENTATION TOOLS

Hatch Patterns

- Landscape and Environmental
- Architectural
- GIS and Geo-technical
- Civil

Complex Linetypes

- Foliage and Ground Cover
- Site Boundaries
- Building/Site Services

COMPATIBILITY

- Bricscad Pro/Platinum V10-V12
- The entire family of AutoCAD products, including:

AutoCAD 2007-2012
AutoCAD Architecture
AutoCAD Civil 3D
AutoCAD Map 3D
AutoCAD Land Desktop

- Multi user licensing options available.
